

# ANNUAL PROGRAMME

*We will be delighted to offer an exclusive programme of events to members of the 1862 Club. The programme combines a series of scheduled events with personal invitations to visit parts of the hospital not normally open to the public. When opportunities arise there will be invitations to meetings with senior clinicians and hospital VIPs in line with your particular interests.*

## Examples of these unique opportunities include:

### **The annual 1862 Club talk and reception**

A personal invitation to a talk by an eminent academic oncologist. To be followed by a Q&A and drinks reception together with networking opportunities.

---

### **A 'Behind the Scenes' tour and talk at the National Eye Proton Therapy Centre**

The Clatterbridge Cancer Centre is the only centre in the UK offering proton therapy for eye cancers. You will be invited to a fascinating private tour by the Head of Department. This area is not usually accessible to the public.

---

### **'Meet the Scientist': be a scientist for the afternoon**

The opportunity for a 'once in a lifetime' experience in our special research facility with a top scientist. Experience for yourself how Clatterbridge pushes the boundaries of cancer research and understand how this translates into the treatment and care of our patients.

---

As the 1862 Club grows we plan to include in our annual calendar further networking opportunities around art and also the new build in Liverpool.

---

### ***A personalised programme for Guardians and Benefactors includes:***

The opportunity to meet senior hospital VIPs as part of a private lunch meeting covering a specialist area of choice.

A personal tour of the hospital, planned around your specific areas of interest and involving senior medical staff and hospital VIPs as part of your visit.

Personal updates from specific departments within The Clatterbridge Cancer Centre in line with your particular area of interest.

*We will keep you updated with any developments to the club programme throughout the year.*
