The Clatterbridge Cancer Centre	Yes	The Trust is currently developing a Green Plan to set our its strategy for sustainability for the coming five years. As part of this we have calculated out carbon footprint for the first time. Our baseline year is 2020-21 and our emissions were 3,358 tCO2e.

**What steps has your Trust taken towards meeting the Greener NHS target of Net Zero by 2045?**

The Trust has taken some steps with regard to sustainability – for example installing photovoltaic cells on the roof of our new Liverpool hospital, replacing light bulbs with LEDs, and investing in active travel facilities. Our Green Plan will set out what more we need to do to reduce emissions in line with national targets.

**What percentage of your Trust energy consumption comes from fossil fuels?**

100% of our electricity at CCC-Liverpool is from renewable sources. The picture is more complicated on our other sites as our electricity is provided through our NHS partners on those sites. As part of their own Green Plans these partners are making moves towards 100% renewable electricity however.
